Why we rebuilt this particular machine, was because its prior life, was an easy-duty machine, as easy as a Cat D11R could be. It strictly pushed overburden, the machine was NOT used in rock, the track frames and machine are extremely clean and solid. These types

of machines make the best rebuilds. This machine was bought new by customer, and under OEM Cat Dealer maintenance since new, components were replaced with new or reman every 18,000 hours. This unit was a great candidate for the Powertrain Rebuild we had our Cat Dealer perform.

Besides the OEM CAT Dealer Rebuild on components, this machine is also getting an extensive pre-sale work order at our facility, including a full final Cat TA2 technical inspection of all component pressures to cat spec, All oils and filters on machine will be serviced as new, all systems and components will be checked, inspected, and rebuilt as needed, as listed above.

Upon completion, we will sandblast, prime, and paint the machine, with high-quality OEM urethane paint and factory decals. Please call or email for additional information that we can email you, including the detailed work order. – This machine will be ready to go.

Please call or email us, to request additional information, Work orders, history, and full pictures for this machine. We can also get you very fair freight rates to anywhere in the country.

We invite your own personal or 3rd party inspection of this machine anytime, located at our facility in Bellevue, Iowa.

**Price: \$1,285,000**
